# Introduction

## What is The Group List?

The Group List is a concise list of therapy groups in Los Angeles county, edited by a licensed psychologist & certified group psychotherapist. Listed groups are conducted in an outpatient setting, are under the direction of a licensed mental health professional, may be supportive, therapeutic, process, educational, or consultative, are either currently running or in wait-list formation, and may or may not be open to referrals at this time. For easy reference, the list is cross-indexed by group topic, city, and facilitator name. Approximately 500 therapists offering over 1,000 total groups within Los Angeles county are included, making it the largest aggregation of groups in Los Angeles.

## Permission to Copy

Permission is granted to the reader to copy and distribute this list as long as the list editor's contact information is not removed. This list is available via mail or via download from the internet. The directory has been downloaded over 20,000 times from TheGroupList.org since first posted on the internet in 2003. We have received feedback from facilitators that The Group List is generating qualified referrals to their practices. As a courtesy when contacting facilitators, please let them know where you learned about their groups.

## Submissions

A free, community service, licensed mental health professionals may list their groups in The Group List whether currently running or in wait-list formation. Submit a brief description or title of each group (up to 40 characters and spaces), your name, degrees, license type & number, e-mail address, office address & phone. Only one line in the list is allowed per therapy group. Groups by pre-licensed facilitators must be listed under their licensed supervisor's name and license number. Groups cannot be listed under an organizational name only. Direct any submissions, inquiries, or corrections to and request updates of this list from the list editor. There is never a cost to therapists or prospective group participants for The Group List. The directory is updated every few months. Approximately annually we confirm with all facilitators the accuracy of their listings.

## Understanding and Acceptance

While the editor makes every effort to ensure the accuracy of information presented in this list, the user is cautioned that this list could include typographical errors and/or technical inaccuracies. Listings are subject to change without notification. This list is provided with the understanding that the editor is not engaged in rendering a professional service in the form of a recommendation or an endorsement. Groups have not been reviewed or evaluated. The editor does not represent or warrant that any specific group is appropriate for any specific individual or specific purpose. Groups are presumed to be either facilitated by or supervised by independently licensed mental health professionals; however, credentials have not been verified. Links contained in our internet directory are provided for the convenience of the user; no approval or endorsement is implied, and links are opened at the users risk. Use of this directory constitutes an understanding and acceptance of these conditions. The Los Angeles Outpatient Group Therapy Directory is not affiliated with any other professional organization or association.

## History

Group therapy is one of several psychological treatment modalities available. Some clinicians consider group the treatment of choice for a number of problems, yet many clinicians do not offer group therapy as a treatment modality in their practice. The process of making a referral to a group is often a time-consuming and difficult task. Prospective group clients can find it quite difficult to locate an appropriate therapy group. It is equally hard for clinicians to find and refer out to a well-selected therapy group. The Group List began out of this need we recognized to connect prospective group therapy participants to appropriate therapy groups.

Typically for a clinician to find a group, they must place several phone calls or send several e-mails out to colleagues in the community, wait and collect the replies--most of which are suggestions for whom to call next. I had collected notes on about 50 therapy groups in my local area by means of this process. Colleagues started to request copies of my informal list. It seemed like if list was of value to some, then others might want it as well.

So in 2003, we began to more formally publish a directory of licensed mental health professionals who actively facilitate outpatient groups or are attempting to start a group (via a waiting list) anywhere in Los Angeles county. A directory of therapy groups is necessary because one cannot usually find therapy groups in the yellow pages or even through local professional associations. Even some available websites are limited and hard to use when looking for therapy groups. We contacted over 1,000 therapists who have professional interest in group work. The response has been almost uniformly positive.

Our intent is to circulate The Group List to the community as widely as possible for purposes of effective cross-referral. The list is mailed out periodically to the professional mental health community. The directory has drawn the attention of search engines Google, Yahoo!, and Bing.

## Circulation

To promote the work of group therapists in Los Angeles county, we distribute the directory in several ways.

Firstly, we distribute the directory by e-mail to approximately 3,000 mental health professionals several times a year. Secondly, the directory is distributed in print in small batches of about 50 at a time to mental health professionals and to other professionals, such as physicians, schools, and others who are likely to use the resource to make referrals. Over the years, hundreds of copies of the directory have been distributed in print. We provide the directory at periodic networking events that we sponsor for listees, where typically 20-40 clinicians attend, introduce themselves to each other, and describe their groups. We provide copies of the directory at professional educational conferences.

Additionally, because of our visibility in the community we receive frequent inquiries from prospective group therapy clients and will refer them either to the website or directly to therapists listed in the directory who facilitate groups that may be appropriate. We also monitor professional e-mail discussion groups and respond to postings requesting information about therapy groups. Lastly, the website we have created specifically for the directory allows both professionals and prospective clients to find and download the directory through search engines including Google, Yahoo, and Bing, among others.

## What is a Certified Group Psychotherapist (CGP)?

Beyond their degree and license, some facilitators in this directory have an additional, national certification of their specialization in group therapy, which will be indicated by "C.G.P." after their name. "A Certified Group Psychotherapist (CGP) is a clinical mental health professional who meets nationally accepted criteria of education, training, and experience in group psychotherapy. A CGP is an expert in group psychotherapy and an ethical practitioner who is committed to group psychotherapy as an autonomous treatment modality." (American Group Psychotherapy Association)

He has most recently published a second book in 2010, The business of practice: Building an optimal private practice for mental health professionals.

## Editor's Note

This edition of The Group List is special. The editor has taken particular efforts to personally assure continued confidence in the accuracy and currency of listings in the directory. We have done so by personally telephoning listees who have not otherwise been contacted in the last six months, asking for an active response about the listee's contact information and groups offered. If the clinician has not personally replied in the affirmative, then their listing has been deleted until such time as they contact us and ask for a reinstatement. So, over the last six months we have contacted about two-thirds of the 550 therapists listed in the directory and will continue to do so. Approximately 300 outdated listings have been removed in this manner from this issue. Meanwhile other active and wait-list groups have been added. We still cannot 100% guarantee accuracy. So if you find a listing is out-of-date, please don't criticize, instead just call and pass along to us the new data. In this way we will all benefit. We hope that you will appreciate the extent to which we have made efforts to maintain a high level of quality to this community service which is entirely free to you.

*It is often difficult to find a group therapy experience, so this is a valuable resource. I recently heard from Jim that he is verifying that all the groups listed are ongoing and currently operating--a huge telephone task--to be sure that the referrals are viable (unlike managed care/insurance panels that often include many therapists who are not taking new referrals, which sends the prospective client on a chase when he/she is most in need of immediate responses). That's just one example of the professional commitment and ethics with which he guides himself....*

The Group List is a concise directory of over a thousand therapy groups in Los Angeles county, edited by a licensed psychologist & certified group psychotherapist.

Therapy groups should be (1) in the Los Angeles metropolitan area, (2) in an outpatient setting, (3) under the direction of a licensed mental health professional, (4) either supportive, process, psychoeducational, or consultative, (5) either currently running or in wait-list formation. Groups do not have to be open to referrals at this time.

A free service to professionals, to list your groups on The Group List (either currently running or in wait-list formation), complete this form and submit it to the editor. We do not list detailed information on dates, times, or fees for groups. Groups by pre-licensed facilitators must be listed under their licensed supervisor's name and license number.

*While the editor makes every effort to ensure the accuracy of information presented in this list, the user is cautioned that this list could include typographical errors and/or technical inaccuracies. Listings are subject to change without notification.
